truth

Last week's U.S. House Intelligence Committee's reenactment of the Russia Collusion hearings was dramatized Karl Marx's famous aphorism that history repeats itself, "the first time as tragedy, the second time as farce circus – in fact, with ringmaster Committee Chairman Adam Schiff (D-CA) and his lying parody of President Trump's phone call with Ukraine's recently elected President Volodymyr Zelenskyy where he tried to align Trump with some 'trumped' up allegations.

Representative Adam Schiff is no doubt, the biggest liar in Congress ranking him with some of the most notorious liars ever. During his committee hearing Schiff lied in his opening remarks and claimed numerous falsehoods about the

President's call in spite of the transcript being provided to general public the day before. His entire description of the President's call was a lie□we have the transcript and this was not in it! President Trump rightfully called for Schiff's removal as the Ringmaster of the U.S. House Intelligence Committee after this dishonest and treasonous performance last week.

> *One has to wonder what the hell is going on with Representative Schiff, why would he so blatantly lie on national television about President Trump's actions with Ukraine? Some might think Adam Schiff is being paid off? Funny you should wonder that! How?*

Over the past several weeks as the whistleblower story was developing I did some research on key Democrats who have been heavily focused on taking down President Trump since he became the presumptuous Republican nominee. Not surprisingly, I found a lot, particularly on the "dark web" about a number of select members of Congress who are obsessed with politically harming and destroying his presidency. Trust me the dark web is a dangerous place! So here's some of what I found.

Note; for now, I'll just focus on one member, that being of course, Democrat Congressman Adam Schiff, as I've been addressing his fate so far.

That said, what drives Adam Schiff's never ending idiocy and radical hysteria?

From the beginning of my research, it's become quite apparent□it had something to do with Russia and Putin, but that, as with a number of other Democrats, is somewhat odd, because they claim to despise Russia and Putin, at least publicly. So, when in doubt follow the money. First off, Congressman Schiff's well documented anti-Putin obsession may have something to do with a billionaire, military complex, and oligarch patron from Ukraine. How and why, well as it turns out, Adam Schiff is an owned hatchet man of major Ukrainian arms dealer by the name Igor Pasternak. Oh yeah, Schiff is so far up Igor's backside…I'll just leave it at that, but it does give credence to his nick-name "pencil-neck."

You see, Schiff's anti-Russian narrative is carefully orchestrated by his Ukrainian handlers. Schiff is so tied and connected to Pasternak that he will say virtually anything. So

much so, this is why he's willing to lie in front of the nation when accusing President Trump of crimes? Schiff is Pasternak's parrot and point man in Washington, DC.

So one has to ask, who is Schiff's patron, Igor Pasternak? He is a Ukrainian globalist and military industrialist. Igor Pasternak was born in Kazakhstan inside the former Soviet Union, and formed a childhood fascination with lighter-than-air (LTA) aircraft that has driven his life's work and development of the Aeroscraft. Mr. Pasternak, who was raised and educated in Ukraine before immigrating to the United States in 1994, is a passionate promoter of Ukrainian culture and business.

He formed his first company, Aeros Ltd., in the Ukraine after graduating with a Masters in Civil Engineering from Lviv Polytechnic in Lviv, Ukraine. The Ukraine-based Aeros built and delivered blimps and tethered aerostats across Europe. Since then, Pasternak has become one of the world's leading experts in the design and construction of FAA certified airships, high-altitude airships, aerostats, and has pioneered the emerging class of cargo airships known as Aeroscraft. He has been active in Washington, D.C. claiming to support increased bilateral ties between the two countries and has been especially active building awareness of Ukraine's strategic economic importance among Members of Congress.

Since political protests broke out across Ukraine in late 2013, Pasternak has worked to personally inform and educate members of Congress about the geostrategic importance of Ukraine to European and U.S. security. In late February 2014, during the final hours of the Yanukovych Presidency. Pasternak curiously travelled to Kiev for "diplomatic reasons" in response to the outbreak of violence that had started less than 48-hours earlier, during the Obama administration's U.S.- CIA sponsored coup, apparently there to support peaceful transitions amid the rapid changes taking place across Ukraine.

> *As for Pasternak's role and association with Schiff, he's betraying his own rather specialized interests here. Since 2013, Pasternak's hosted a number of fundraisers for Schiff's reelection campaign was held at his luxury home in Washington, D.C. Price of admission has ranged from $2,500 a head, and $1,000 for guests. So now the other question, why is Pasternak such a fan of Schiff?*

Well, perhaps that's obvious, but the answer may be found in a previous Washington Times story which headlined; "Ukraine Desperate for Surveillance Equipment in Stand Off With Russia," which details the efforts of the Ukrainian government to get around the Obama administration's reluctance to provide them with the "defensive weapons," which Schiff was so eager to shower them with. Yet the Times tells us that Pasternak has somehow managed to get around the prohibition imposed by the administration, at least to a limited extent.

The story noted that: "In the meantime, a private, State Department-approved transaction has a Montebello, California, company, Worldwide Aeros, set to erect eight sensor-mounted towers that would deliver immediate surveillance along the southeastern border this winter…This system will provide a much more robust capability to detect incursions into their territory, It detects with the radar and then confirms with the camera…Ukraine eventually may opt for blimp-like aerostats with even more powerful ranges." The article went on to further note, "Worldwide Aeros was founded by a Ukrainian-born engineer, Igor Pasternak, who has won Pentagon contracts to develop different sizes and shapes of airships."

Since entering Congress in 2002, Congressman Schiff hasn't met a war he didn't like. He has backed every military action the U.S. has been involved in from Iraq to the U.S.-Saudi war in Yemen. Similarly, even the not so favorable actions found him cheering on Obama's regime change operation in Libya and clamoring for direct U.S. intervention in Syria. When it comes to dealing arms, Schiff lent his name to virtually every authorization or resolution that has landed on his desk.

Likewise, the U.S. arms industry has rewarded Schiff handsomely, pumping well over $100,000 into his campaign coffers through 2018. Schiff's largest donor contributing to his reelection campaigns has been Northrop Grumman, the U.S. defense giant. Followed by Raytheon — the manufacturer of the Javelin anti-tank missile system sent by the U.S. to the Ukraine military. In all, arms dealers accounted for over one-sixth of Schiff's total campaign donations.

Which leads to the age old hunch, follow the money. Pasternak is selling the Ukrainians military hardware, and there is no doubt, eager to sell them more□paid for by U.S. taxpayers, of course. Get the picture. Then there are the reports, accordingly, Pasternak is deeply involved with the

Ukrainian government's own military production, which is seeking to eliminate its dependence on Soviet era military hardware, licensed and dependent on Russia. Note that on January 3, 2017, as part of a long-term plan to adopt NATO military standards, Ukraine took a step toward ditching this Soviet military carryover.

In this case, Ukroboronprom, Ukraine's nationalized defense industry conglomerate, announced a partnership agreement between the Ukrainian defense manufacturer Ukroboronservis and Pasternak's U.S. company, Aeroscraft to produce in Ukraine a variant of the U.S. M16 assault rifle. The M16 variant project was conceived as the Ukrainian armed forces, border guards, and National Guard concept will switch to NATO standards. Interestingly, that was announced by none other than Aeroscraft founder and CEO Igor Pasternak, during a January 2017 press conference in Kiev.

The other interesting concept, how Pasternak raises thousands' for Schiff, and Schiff raises 'millions' from U.S. tax dollars for Pasternak. It's a sweet deal all around. Sorry taxpayers□and by the way, are you really pissed off at President Trump whose trying to find out and verify how American taxpayers are getting ripped off! Oh yea, and guess what else I found out? I leave you with this; Pasternak was reportedly in and around the Ukraine at the same time that then Vice President Joe Biden had his son appointed to the Board of the Ukraine's largest oil and gas producer. Word is they were having a private dinner together, according to my source.

But to the Democrats, there's nothing to worry about, they got it, things work fine when they're in charge, yea right. So when Biden bloviates about billion dollar quid pro quo's if the prosecutor isn't fired by the time he leaves Ukraine in 6-hours. Or as Schiff bloviates and jokes□he's a funny guy you know, that his campaign to restart the cold war with Russia is an ideological crusade: "We are involved in a new battle of ideas," he avers. "Not Communism versus Capitalism, but 'authoritarianism versus democracy'."

Folks, yeah this may be about capitalism□but it's about Adam Schiff and his version of oligarchian-crony capitalism of the sort that enriches both Schiff and Pasternak. As Major General Smedley Butler, USMC, awarded the Medal of Honor twice put it in 1935: "War is a racket." And Adam Schiff is one of the biggest racketeers in Washington.

Did I mention that I also found that Mr. Pasternak is also connected to a billionaire guy named George Soros□with a

little research it's blatantly obvious? Who wouldn't be surprised?

Let me restate my earlier comment□President Trump was right in calling for Congressman Schiff's removal from the Intelligence Committee after this dishonest performance. With this information and a little hindsight, that's a given!

But at least now we know why Schiff is lying□he's connected with a major Ukrainian arms dealer!

What you are witnessing is another aspect of the ongoing silent political coup under the backdrop of a cold civil war implemented by the Democrats and under way since November 9, 2016.
